

SimplementTM

SIMPLEMENT Offers an Alternative to SAP HANA

- » Immediate access to detailed SAP Data without burdening IT
- » Get Real-Time reporting and Make Smarter Decisions
- » No Impact on your Transaction System or Drain of Resources
- » Replace older Business Warehouse environments
- » Create inter-application Data Integration easily
- » High Value, Low cost of Ownership, delivered in Less Time
- » Pre-defined data templates for the most common reports (SMART STARTSTM)

Simplement offers SAP Customers:

- » Simplement runs on SQL Server on-Premises or Microsoft Azure
- » A low cost alternative to a HANA implementation
- » A low risk solution in real-time without the overhead & uncertainty
- » A high value, highly competitive alternative to deploying SAP HANA
- » The opportunity to be more self-service and support more users
- » The flexibility to run your business dynamically
- » An alternative to frustration and complexity
